

TROPICAL BIRDING

Thailand Custom Tour

21st February – 6th March, 2010

Tour leader: Charley Hesse
Report and photos by Charley Hesse.

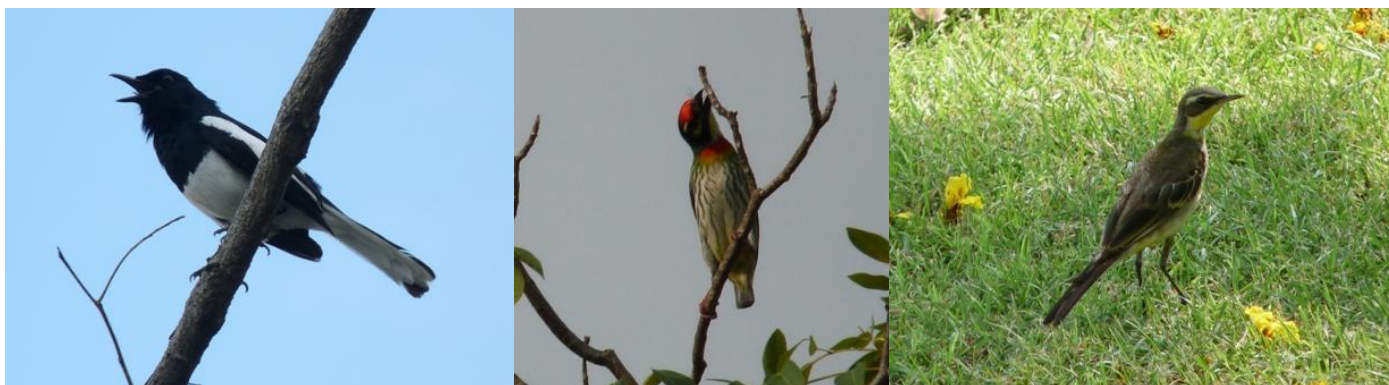

With its well-developed tourist infrastructure, friendly people, delicious food, wide range of habitats and superb diversity of both resident, migrant and wintering birds; Thailand is an obvious first choice as an introduction to Asian birding. On this short custom tour we concentrated on birding just a few areas. The majestic Khao Yai National Park where gibbons & giant squirrels compete with the hornbills & pheasants for top-billing; world class shorebirding close to Bangkok with the mega-rare Spoon-billed Sandpiper; and the mountains of the north-west with numerous wintering thrushes & warblers, colorful minivets & sunbirds, and countless skulking specialties that make you work for your list. Thailand has everything you could ask for in a birding destination.

22nd February – Suan Luang Park

Eager to get off to an early start to the tour, the supposed rest day turned into a birding warm up in a Bangkok park. Despite all the Bangkok locals doing aerobics, jogging and walking, there was a surprising variety of birds for a city park. Straight away we got **Streak-eared Bulbul**, **Oriental Magpie Robin** and **Coppersmith Barbet** which were all common. As we passed the edge of a reservoir bordering the park we flushed **Little Cormorant**, **White Wagtail** and spotted a few egrets in the distance. Walking around the park we saw many other nice birds such as **Pied Fantail**, **Olive-backed Sunbird** and **Red Collared Dove**.

The gardens and ponds were very neatly kept and I was adamant to find some more overgrown areas of the park. A jogger came by huffing and puffing and said in good English that there was a place with lots of birds. He gave us quick directions without stopping. We must have gone the wrong way but on his next circuit he pointed us to the right spot. The place he directed us to was a small island which had big trees and lots of tangly vegetation. We started seeing new species right away, including: **Black-naped Oriole**, **Red-breasted Flycatcher** and even **Black-naped Monarch**. Our time was running out so we started heading back towards the car seeing a stunning **Black-capped Kingfisher**, 2 subspecies of **Yellow Wagtail** and a **Richard's Pipit** on the way. Traffic was heavier heading back, and we had to explain our lateness to the non-birding member of the group we had left behind. Duly pardoned we went out to a local (and mercifully) air-conditioned restaurant for our first delicious Thai food. The rest of the day was spent touring the magnificent Grand Palace.

Oriental Magpie Robin

Coppersmith Barbet

Yellow Wagtail

23rd February – Samut Sakhon, Machahai & Pak Thale

To beat the early morning traffic in Bangkok we decided to make an early start along the coast to our first birding site, the famous salt pans of Samut Sakhon. Now eclipsed my Pak Thale for finding the rare Spoon-billed Sandpiper, Samut Sakhon is still a worthwhile site for many migrant waders, water birds and a variety of open country birds. After just an hour or so of driving from Bangkok we finally started to get out of the urban setting and see our first common egrets, doves, mynas. We started scanning the salt pans looking for shore birds close to the road. We reached a spot previously famous for the Spoon-billed Sandpipers and ever hopeful, started working our way through many **Broad-billed, Marsh, Common, Curlew & Wood Sandpipers**, **Pacific Golden Plovers**, **Common Greenshank**, **Lesser Sand-Plovers** & ubiquitous **Red-necked Stints**. Lower numbers of **Temminck's** & **Long-toed Stints**, **Ruddy Turnstone** and **Terek Sandpiper** also helped nurture our young trip list.

At lunch we found a nice restaurant with a view over the freshly exposed mud flat in the distance. We wished we were closer as there were some fantastic larger waders discernable in the distance. Amongst numerous **Black-tailed Godwits** and **Eurasian Curlews** we identified a few **Asian Dowitchers** and **Far Eastern Curlews**. Other than the waders at Samut Sakhon we found several other interesting water birds such as a nice **Javan Pond-Heron**, **White-breasted Waterhen**, **Intermediate Egret**, **Brown-headed & Pallas's Gulls**, 4 species of tern including an breeding plumage **Whiskered Tern** whose deep gray belly looked almost dark enough to call black and resemble something much rarer.

We moved on to our next birding site, the Mangrove Research Station at Machahai. Here **Golden-bellied Gerygone** was common and vocal throughout but our target Mangrove Whistler was not, we also missed the best tide and the waders were all very far out. The odd interesting wader like the **Common Redshank** (not that common in this part of the world) did offer good views and nearby Little Grebe was a nice addition. We continued on to Petchaburi and the peaceful resort area of Had Chao Samran where we would spend the night. Some members of our group decided to relax whilst the hardcore headed straight out to scope

out the Spoon-billed Sandpiper site. We had just an hour to check out the amazing salt pans at Pak Thale but the wind wasn't helpful. We added several birds to our day list like **Osprey**, **Black-winged Stilt** and **Spotted Redshank**, but dusk finally came and we were forced to retire to the hotel and eat delicious seafood. What a bind.

Black-winged Stilt

Indochinese Bushlark

Black-capped Kingfisher

24th February – Pak Thale to Kao Yai National Park

Breakfast was at 8am so we had a quick snack at the convenience store and returned to Pak Thale. The wind was low and birds active and we started our search for Spoon-billed Sandpipers after sharing some gen with a Swedish diplomat birder. More views of many of the same shorebirds as yesterday. After an hour of searching, I finally spotted a single **Spoon-billed Sandpiper** preening by the edge of the saltpan. When it dropped its head we saw the very distinct bill shape. We were informed the well out of range **Greater Flamingo** was an escapee but was still nice to see as well a beautifully plumaged **Painted Stork**. After breakfast we spent our last hour here birding the scrub, grass and overhead wires along the road near the resort kicking up some great new birds for the trip. **Red-wattled Lapwing**, **Green Bee-eater**, **Black-capped & Collared Kingfishers**, **Ashy Woodswallow**, both **Indochinese Bushlark & Oriental Skylark** and **Scaly-breasted Manikins** building a nest near the car park of our hotel.

We had a long drive back to Bangkok and from there north to the town of Pak Chong and the famous Khao Yai National Park nearby. We checked into the impressive Juldis Resort and spent the remainder of the afternoon birding. Walking around the gardens we finally got great views of the attractive **Red-breasted Parakeet**. The gardens of the hotel being one of the best places to see this bird. Other interesting birds in the garden were **Indian Roller**, **Tiger Shrike & Hainan Blue Flycatcher**. Despite it being mainly a travel day we had seen many great birds. All ready now for the onslaught of new species tomorrow.

25th February – Khao Yai National Park

This was our first full day's birding in the national park and expectations were high. After a great early breakfast buffet at our hotel, we went straight to the first viewpoint in the park. There were no real birding stops along the way but we did spot a bird perched high up on an exposed trunk in the early morning that turned out to be a **Brown Hawk-Owl**. We set ourselves up at the viewpoint and started working our way through the large number of species present. The commonest being **Spangled Drongo**, **Vernal Hanging-Parrot & Asian Fairy Bluebird** although other species like **Golden-naped Oriole**, **Pompadour Green-Pigeon**, **Hill Myna & Golden-crested Myna** started making themselves apparent. Also some beautiful **Pin-tailed Parrot-Finches** were spotted feeding on some seeding bamboo nearby.

Further along the road was a nice trail into mature forest where I had seen a lot of birds before. Activity was low but our efforts were rewarded with 2 spectacular male **Siamese Firebacks** along with brief views of **White-crested Laughingthrush** and **Sultan Tit**. Another trail further along failed to produce any forest bird but did give us some exercise and great views of a colourful **Stork-billed Kingfisher** along the river. Unfortunately the shy **White-crowned Forktails** disappeared round a bend as soon as we came out at the river, offering no views. Next we walked a loop trail up a steep hill from the HQ. It was pretty quiet but we did hear **Blue Pitta** call a couple of times. After a brief stop for lunch, we got straight back at it. The top viewpoint had some great scenery but we only saw swifts & swallows until two unmistakable **Mountain Hawk-Eagles** soared past. Another raptor in the distance eluded identification. Lower down we saw a stunning male **Red-headed Trogon** at a nest stakeout I had been told about.

After following another tip off we found the spot described by a guide I had chatted to at lunch and had nice views of the pretty **Chestnut-headed Bee-eater**. Time was getting on and after a fruitless search along the road for elephants, we birded the upper camp site area looking for Coral-billed Ground-Cuckoo. A previously regular bird at the drainage pipe behind a restaurant, one now has to find it the hard way. We had no luck along the trail but we checked out a beautiful waterfall where we saw a **Blue Whistling-Thrush** at close range. After this we had some great birds in the camp area, such as **Yellow-vented Flowerpecker**, **Thick-billed Green-Pigeon**. On the way out, we stopped at a stake out for the **Great-eared Nightjar** before calling it a day and heading straight back to the bar for drinks and then dinner.

Blue Whistling-Thrush

White-handed Gibbon

Great Hornbill

26th February – Khao Yai National Park

After a great day yesterday, today's goal was to see as many new birds as possible. We stopped again at the first viewpoint and started adding birds. Setting up the scope of a tall flowering tree netted us **Thick-billed & Plain Flowerpeckers** along with **Chestnut-flanked White-eye**. More **Pin-tailed Parrot-Finches & White-rumped Munias** on the flowering bamboo. Another large group of birders helped us get on many good birds like **Brown-rumped, Rosy & Scarlet Minivets** and **Collared Owlet**, so we repaid them with some valuable tip offs for birds they needed. You scratch my back...

After another fruitless search for forketails by the river, just flushing a couple of **Striated Herons**, we decided to explore the grassland area on the way to a viewing platform. Here we added **Yellow-bellied Prinia, Green Magpie, Golden-headed Cisticola, Blue Rock-Thrush & Crested Goshawk**. After checking at the visitors centre we were pointed towards one of the best fruiting trees for hornbills. The 2 we had already seen were **Oriental Pied-Hornbill** and **Wreathed** but we waited patiently for the last 2 in the meantime keeping ourselves occupied looking at the enormous giant squirrels. A **Great Hornbill** finally showed and we got some nice photos but no sign of the rare Brown Hornbill. Again we had good activity along the Khao Kieow viewpoint road. At the top, we took a short trail to a different viewpoint along which we saw a stunning male **Hill Blue-Flycatcher** and the interesting **Plain-tailed Warbler**. The last trail for the day was where I had previously bumped into Coral-billed Ground Cuckoo. We didn't see any, but did get another **Siamese Fireback** and a large flock of laughing-thrushes including the skulking **Black-throated Laughingthrush**. We went out for dinner to a restaurant with great Thai food. Afterwards we walked to the garden behind, a stake out for the dinky **Asian Barred Owlet**. It responded very well and took less than 5 minutes to find. A nice way to finish another great day's birding.

27th February – Khao Yai National Park & Rangsit Marsh to Bangkok

The last morning was a clean-up operation. We revisited several sites hoping to try for birds we had missed or better views of some of those we had already seen. First order of the day was to see some kind of woodpecker at the viewpoint. Unbelievably we still haven't seen one. Of course we saw 3 today. **Rufous Woodpecker & Greater Flameback** in flight and scope views of the awesome **Great Slaty Woodpecker**. Now of course the largest woodpecker in the world. Also new was a nice **Pale Blue Flycatcher**. Next we wanted to check the nest of the **Long-tailed Broadbills** we had learned of yesterday. We only had to wait about 10 minutes before the pair came in and continued with their nest-building. A truly spectacular species. An added bonus was the unusual **Blue-bearded Bee-eater** which looks more like a New World motmot than a bee-eater. Unfortunately the Orange-bellied Trogons heard yesterday were not there. Out of the blue however, we had 2 **Silver Pheasants** crossing the road in front of us.

Moving on swiftly we revisited the fantastic fruiting tree from yesterday, again seeing the same 3 hornbill species but no Brown unfortunately. There was a lot more activity this morning and the tree was alive with barbets, bluebirds, monkeys and many giant squirrels. From here we drove along the first part of the Khao Kieow viewpoint road looking for more flocks. Activity was still quite good and along with many of the previously seen species we added **Great Iora** and some (thankfully) very vocal **Blyth's Leaf-Warblers**. We walked another forest trail checking for babblers, pittas or broadbills but with no luck.

Our time was up and we raced back to the hotel to check out. We had decided to try and find some water and open country birds on the way back and we tried to find a place called Rangsit Marsh in the north of Bangkok. The directions we followed from a trip report were totally misleading and we found it better to follow our noses and explore the fields, ditches and ponds of the area. Although not a mega site, we still added several species to our trip list such as: **Baya Weaver, Oriental Reed Warbler, Zitting Cisticola** and a large flock of **Lesser Whistling-Ducks** in flight. We arrived to our hotel at a reasonable hour and went out again to a very nice restaurant for some delicious traditional Thai food and singing.

28th February –Bangkok to Chiang Mai, Doi Chiang Dao & Ban Thaton

Today was mainly a travelling day. After a trouble free flight to Chiang Mai, we picked up our 4WD vehicle and started heading north. We had just a couple of hours to check out the famous Wat Tam Pa Plong temple steps at Doi Chiang Dao. After a delicious meal at Malee's guest house we walked along the road checking the large trees and scrub. **Blue-throated Barbets** were calling all over and we managed to get a nice scope view of this colourful bird. It was very quiet for birds making this stop more of a cultural one, but we did pick up several nice birds such as **Black Bulbul, Black-hooded Oriole & Asian Paradise Flycatcher**. We also had a nice flyby of a beautiful **Emerald Dove**. As we enjoyed the lovely view from the top of the temple we were treated to fantastic views of a pair of **Brown-backed Needletails** from above. A final treat was being shown a **Grey-capped Pygmy-Woodpecker** nest by a resident British birdwatcher at Malee's who gave us some great site information on other places too. After trying and failing for the Grey-headed Lapwing, we continued on to the delightful Maekok River Village Resort for a late dinner.

Great views from Wat Tam Pha Plong temple at Doi Chiang Dao

1st March – Doi Lang & Temple

Today we visited the mouth-watering birding site of Doi Lang just 45minutes or so from our resort. After turning off the main road we started our day's birding, hopping out at the sign of activity. The lower part of the road was secondary forest and some open areas but we added **Pied & Grey Bush-Chats, Puff-throated & Golden Babblers, Long-tailed Shrike, Japanese White-eye** and the amusingly-named and absolutely stunning **Mrs Gould's Sunbird**. Higher up we saw **Flavescent, Mountain & Striated Bulbuls, Long-tailed & Short-billed Minivets, Blue-winged Minla, Yellow-cheeked Tit, Chestnut-vented Nuthatch, Black-throated Sunbird, Streaked Spiderhunter, Bronzed & Lesser Racket-tailed Drongos**.

Activity was a little slow at the top and we missed a couple of target birds, but a drive along the road still got us a lot of new species.. **Golden-throated Barbets** (calling everywhere but it took a while before we finally got a look at one), **Crested Finchbill** (fairly common here but difficult in most other places in northern Thailand), many confusing leaf warblers, **Large Cuckoo-shrike, Yellow-bellied Fantail, Rufous-winged**

Fulvetta, Black-backed Sibia, Whiskered Yuhina and **Black-throated Tit**. The 2 latter birds very limited ranges in Thailand. We also heard a strange chattering call in a tree and managed to get a brief view of a tiny little blue bird that turned out to be a **Pygmy Blue-Flycatcher** even though it looked far more like a flowerpecker. In the afternoon we headed back down and spent some time a local temple on a hill. Even though it was mainly a cultural stop, there were a number of interesting birds species present. **Brown-cheeked Fulvetta & Arctic Warbler** being notable additions to the list. It had been a long day so we headed back to our luxurious resort for another delicious local meal.

Whiskered Yuhina

Red-flanked Bluetail

Red-faced Liocichla

2nd March – Doi Lang, agricultural land & river boat trip

We were still missing quite a few species from the upper area at Doi Lang so we left even earlier and drove straight up to the military checkpoint. Half way along, sat on the road, was a beautiful male **Grey Nightjar** which sat there long enough to give great views. It was cold up there and we ate our packed breakfast whilst waiting for birds to come in to the fruit that had been put out by the soldiers. Here we saw **Black-backed Sibia, Chestnut Thrush, stunning Red-faced Liocichlas** and a fly-by of some noisy **Grey Treepies**. A couple of Swedes had camped up here with their guide and driver and they invited us to join the feeding of mealworms to Golden Bush-Robin. A mega bird in Thailand. We dutifully waited by the feeding station, cameras and binoculars at the ready. First to come in were some pretty **Red-flanked Bluetails** but a skulking female **Golden Bush-Robin** finally appeared but made sure her visits were short enough to offer no photo opportunity. A nice flock passed by with **Grey-cheeked Fulvetta** which we missed yesterday. After thanking the kind Swedes we continued to walk along the road picking up a flock of delightful little **Black-throated Parrotbills, Asian Martins** flying overhead and finally fleeting glimpses of a **Spectacled Barwing**. We made it back to the resort just in time for lunch and using the scope over the river we added **Green Sandpiper**. After lunch we took a drive around an agricultural area nearby. Although we had no luck with Jerdon's Bushchat at the supposed stakeout, we did add our first **Black-shouldered Kite, Hoopoe, Asian Pied Starling & Ashy Minivets**.

We rushed back so as not to be late for our boat trip at 4pm. Our boatman was a smiley chap and mercifully spoke a few words of English. He had obviously carried birders before and slowly chugged us downstream. Birding didn't quite meet our high expectations but it was fun and we did add a few species, namely, **Common Kingfisher, Little Ringed Plover, Chestnut-tailed Starlings** and some surprise **Black-headed Greenfinches**. Another rarity in Thailand. The water level of the river was very low and we got beached a couple of times. The last time, pretty solidly. So 2 of us had to jump out and push. We thanked our boatman at the jetty for getting us back safely. We weren't done birding yet and jumped off the boat and straight into the car for a spot of owling at the temple. Unfortunately the only owl we heard calling was the **Asian Barred Owlet** but just before calling it a day, I heard the distinctive call of the **Large-tailed Nightjar** and we had a good flyover. Another bird-filled day with over 90 species.

3rd March – Doi Ang Kang

We had a very early start as we had to drive an hour and a half to Doi Ang Khang. We arrived in good time to start birding and set off on the highest trail, home to some really exciting birds. Birds were active and we soon started ticking off new species. We finally got **Lesser Racket-tailed Drongo, Rufous-backed Sibia, White-bellied Redstart, Mountain Tailorbird, more Red-faced Liocichlas** and the beautiful **Silver-eared Mesia**. We drove down and checked into our comfortable hotel, the Ang Khang Nature Resort. Picking up **House Swift** flying overhead. After dropping off our luggage and non-birders we headed straight back out to another lower trail. Along the beginning of this, we finally picked up a **White-crowned Forktail** walking

along the trail. Birding was slow but a few good species made it worthwhile. **Mountain Bamboo-Partridge, Gould's & Black-throated Sunbird, Maroon Oriole & Spectacled Barwing** were just some of the species seen. After this we drove up to a viewpoint where we had **Crested Serpent Eagle** but the roadside forests only contained common species we had already seen. For lunch we entered the amazing gardens at the King's Project and after finishing more tasty (and spicy) Thai food we walked around the back where birds came in to the waste waterpipe. Here we had **Black-breasted & Dark-sided Thrushes, Grey-winged Blackbird & Chestnut-vented Nuthatch** although it took us a few attempts to see all of these.

After lunch we walked down to the Nature Study Trail spotting a beautiful pair of **Velvet-fronted Nuthatches** on the way. The forest was a little quiet but we did manage to find **Olive-backed Pipit & White-tailed Robin**. Next to the Bonsai & rock gardens where we got **Chestnut-bellied Rock-Thrush & Asian Emerald Cuckoo** but no **Limestone Wren-Babbler** despite a concerted effort. Later on we tried again at km21 for the cute little **Chestnut-headed Tesia** with no luck but we had **Buff-throated Warbler** as a consolation. The last birds of the day were at a local hotel with a small waterfall home to **Hill Blue-Flycatcher, Rufous-bellied Niltava** and **White-capped Redstart**. Some really beautiful birds. We had done well to pick up so many new species for the trip and enjoyed a cold beer in the warm late afternoon.

Hill Blue Flycatcher

Rufous-bellied Niltava

White-capped Redstart

4th March – Chiang Saen

After a very early start and long drive we arrived in time for a few hours birding in the Chiang Saen before our early afternoon flight back to Bangkok. We started along the Mekong River which forms the border with Laos. We spotted some **Small Pratincoles** on the far bank kick-starting our Laos lists. Luckily, further on we saw more on the near bank a lot closer. We continued scanning the banks of the Mekong for the scarce River Lapwing with no luck. We did however spot **Little Ringed Plover, Common Greenshank & Green Sandpiper**. The waterside also held **Blue Rock-Thrush, Dusky Warbler & Chestnut-tailed Starling**. All new for the trip. Next we drove to the nearby Chiang Lake, where the main draw were ducks and other waterbirds. Here we had thousands of **Lesser Whistling-Ducks**, many **Garganey** and a few **Spot-billed Ducks** which we missed on the river. Other waterbirds included **Purple Heron, White-breasted Waterhen, White-browed Crake**, the colourful **Purple Swamphen, Eurasian Coot, Pheasant-tailed Jacana, Wood Sandpiper**, 3 species of kingfisher and numerous open-country species. The best bird from a Thai point of view though was **Great Cormorant** which is a strangely rare bird in the country. Our birding was at an end and we drove to Chiang Rai to catch our flight back to Bangkok. Our 10 day whistle-stop tour had netted us an impressive 311 species seen plus another 8 species heard. Apart from the wonderful variety of beautiful birds; delicious food, friendly people and safety surely make this a perfect introduction to Asian birding.

Bird List

Taxonomy following Clements 6th edition

Little Grebe	<i>Tachybaptus ruficollis</i>	Seen at Mahachai & Chiang Saen.
Indian Cormorant	<i>Phalacrocorax fuscicollis</i>	Seen at Pak Thale.
Great Cormorant	<i>Phalacrocorax carbo</i>	Seen at Chiang Saen.
Little Cormorant	<i>Phalacrocorax niger</i>	Seen at at Suan Luang, Samut Sakhon, Pak Thale & Rangsit Marsh.
Gray Heron	<i>Ardea cinerea</i>	Seen at Pak Thale & Chiang Saen.
Purple Heron	<i>Ardea purpurea</i>	Seen at Chiang Saen.
Great Egret	<i>Ardea alba</i>	Commonly seen throughout.
Intermediate Egret	<i>Egretta intermedia</i>	Seen at Samut Sakhon.
Little Egret	<i>Egretta garzetta</i>	Commonly seen throughout.
Chinese Pond-Heron	<i>Ardeola bacchus</i>	Commonly seen throughout.
Javan Pond-Heron	<i>Ardeola speciosa</i>	Seen at Samut Sakhon.
Cattle Egret	<i>Bubulcus ibis</i>	Seen at Pak Thale, Khao Yai & Rangsit Marsh.
Striated Heron	<i>Butorides striata</i>	Seen at Suan Luang Park, Samut Sakhon, Pak Thale & Khao Yai.
Painted Stork	<i>Mycteria leucocephala</i>	Seen at Pak Thale.
Asian Openbill	<i>Anastomus oscitans</i>	Seen at Suan Luang Park, Khao Yai & Rangsit Marsh.
Lesser Whistling-Duck	<i>Dendrocygna javanica</i>	Seen at Rangsit Marsh & Chiang Saen.
Spot-billed Duck	<i>Anas poecilorhyncha</i>	Seen at Chiang Saen.
Garganey	<i>Anas querquedula</i>	Seen at Chiang Saen.
Osprey	<i>Pandion haliaetus</i>	Seen at Mahachai & Pak Thale.
Black-shouldered Kite	<i>Elanus caeruleus</i>	Seen at Ban Thaton.
Brahminy Kite	<i>Haliastur Indus</i>	Seen at Samut Sakhon & Pak Thale.
Crested Serpent-Eagle	<i>Spilornis cheela</i>	Seen at Khao Yai, Rangsit Marsh & Doi Ang Khang.
Crested Goshawk	<i>Accipiter trivirgatus</i>	Seen at Khao Yai.
Mountain Hawk-Eagle	<i>Spizaetus nipalensis</i>	Seen at Khao Yai.
Eurasian Kestrel	<i>Falco tinnunculus</i>	Seen at Khao Yai.
Rufous-throated Partridge	<i>Arborophila rufogularis</i>	Heard at Doi Lang.
Scaly-breasted Partridge	<i>Arborophila chloropus</i>	Heard at Khao Yai.
Mountain Bamboo-Partridge	<i>Bambusicola fytchii</i>	Seen at Doi Ang Khang.
Red Junglefowl	<i>Gallus gallus</i>	Seen at Khao Yai.
Silver Pheasant	<i>Lophura nycthemera</i>	Seen at Khao Yai.
Siamese Fireback	<i>Lophura diardi</i>	Seen at Khao Yai.
Slaty-breasted Rail	<i>Gallirallus striatus</i>	Seen at Pak Thale .
White-breasted Waterhen	<i>Amaurornis phoenicurus</i>	Seen at Samut Sakhon, Khao Yai, Ban Thaton & Chiang Saen.
White-browed Crane	<i>Porzana cinerea</i>	Seen at Chiang Saen.
Purple Swampphen	<i>Porphyrio porphyrio</i>	Seen at Chiang Saen.
Common Moorhen	<i>Gallinula chloropus</i>	Seen at Samut Sakhon, Rangsit Marsh & Chiang Saen.
Eurasian Coot	<i>Fulica atra</i>	Seen at Chiang Saen.
Pheasant-tailed Jacana	<i>Hydrophasianus chirurgus</i>	Seen at Chiang Saen.
Black-winged Stilt	<i>Himantopus himantopus</i>	Seen at Samut Sakhon, Mahachai, Pak Thale & Chiang Saen.
Small Pratincole	<i>Glareola lacteal</i>	Seen at Chiang Saen.
Red-wattled Lapwing	<i>Vanellus indicus</i>	Seen at Pak Thale, Khao Yai & Ban Thaton.
Pacific Golden-Plover	<i>Pluvialis fulva</i>	Seen at Samut Sakhon & Mahachai .
Black-bellied Plover	<i>Pluvialis squatarola</i>	Seen at Mahachai & Pak Thale.
Little Ringed Plover	<i>Charadrius dubius</i>	Seen at Ban Thaton & Chiang Saen.
Snowy Plover	<i>Charadrius alexandrinus</i>	Seen at Samut Sakhon & Pak Thale.
Lesser Sandplover	<i>Charadrius mongolus</i>	Seen at Samut Sakhon & Pak Thale.
Greater Sandplover	<i>Charadrius leschenaultii</i>	Seen at Samut Sakhon.
Asian Dowitcher	<i>Limnodromus semipalmatus</i>	Seen at Samut Sakhon.
Black-tailed Godwit	<i>Limosa limosa</i>	Seen at Samut Sakhon & Pak Thale.
Whimbrel	<i>Numenius phaeopus</i>	Seen at Mahachai & Pak Thale.
Eurasian Curlew	<i>Numenius arquata</i>	Seen at Mahachai & Pak Thale.
Far Eastern Curlew	<i>Numenius madagascariensis</i>	Seen at Mahachai Pak Thale.
Spotted Redshank	<i>Tringa erythropus</i>	Seen at Pak Thale.
Common Redshank	<i>Tringa tetanus</i>	Seen at Samut Sakhon & Mahachai .
Marsh Sandpiper	<i>Tringa stagnatilis</i>	Seen at Samut Sakhon, Mahachai & Pak Thale.
Common Greenshank	<i>Tringa nebularia</i>	Seen at Samut Sakhon, Pak Thale & Chiang Saen.
Green Sandpiper	<i>Tringa ochropus</i>	Seen at Ban Thaton & Chiang Saen.
Wood Sandpiper	<i>Tringa glareola</i>	Seen at Samut Sakhon, Pak Thale & Chiang Saen.
Terek Sandpiper	<i>Xenus cinereus</i>	Seen at Samut Sakhon.
Common Sandpiper	<i>Actitis hypoleucos</i>	Seen at Samut Sakhon, Ban Thaton & Chiang Saen.
Ruddy Turnstone	<i>Arenaria interpres</i>	Seen at Samut Sakhon.
Red Knot	<i>Calidris canutus</i>	Seen at Samut Sakhon, Mahachai & Pak Thale.
Sanderling	<i>Calidris alba</i>	Seen at Pak Thale.
Red-necked Stint	<i>Calidris ruficollis</i>	Seen at Samut Sakhon & Pak Thale.
Temminck's Stint	<i>Calidris temminckii</i>	Seen at Samut Sakhon, Mahachai & Pak Thale.
Long-toed Stint	<i>Calidris subminuta</i>	Seen at Samut Sakhon & Pak Thale.
Curlew Sandpiper	<i>Calidris ferruginea</i>	Seen at Samut Sakhon, Mahachai & Pak Thale.
Dunlin	<i>Calidris alpina</i>	Seen at Pak Thale .
Spoon-billed Sandpiper	<i>Eurynorhynchus pygmeus</i>	Seen at Pak Thale .
Broad-billed Sandpiper	<i>Limicola falcinellus</i>	Seen at Samut Sakhon.
Great Black-headed Gull	<i>Larus ichthyæetus</i>	Seen at Samut Sakhon.
Brown-headed Gull	<i>Larus brunnicapillus</i>	Seen at Samut Sakhon & Pak Thale.
Gull-billed Tern	<i>Sterna nilotica</i>	Seen at Samut Sakhon.
Caspian Tern	<i>Sterna caspia</i>	Seen at Pak Thale.
Common Tern	<i>Sterna hirundo</i>	Samut Sakhon & Pak Thale.
Little Tern	<i>Sterna albifrons</i>	Seen at Samut Sakhon & Pak Thale.
Whiskered Tern	<i>Chlidonias hybridus</i>	Seen at Samut Sakhon & Pak Thale.
White-winged Tern	<i>Chlidonias leucopterus</i>	Seen at Samut Sakhon & Pak Thale.

Rock Pigeon	<i>Columba livia</i>	Seen commonly throughout.
Oriental Turtle-Dove	<i>Streptopelia orientalis</i>	Seen at Doi Lang & Ban Thaton.
Red Collared-Dove	<i>Streptopelia tranquebarica</i>	Seen at Suan Luang, Samut Sakhon, Pak Thale & Rangsit Marsh.
Spotted Dove	<i>Streptopelia chinensis</i>	Seen commonly throughout.
Emerald Dove	<i>Chalcophaps indica</i>	Seen at Khao Yai & Doi Chiang Dao.
Zebra Dove	<i>Geopelia striata</i>	Seen commonly throughout.
Pink-necked Pigeon	<i>Treron vernans</i>	Seen at Suan Luang Park.
Pompadour Green-Pigeon	<i>Treron pompadora</i>	Seen at Khao Yai.
Thick-billed Pigeon	<i>Treron curvirostra</i>	Seen at Khao Yai & Rangsit Marsh.
Wedge-tailed Pigeon	<i>Treron sphenura</i>	Seen at Khao Yai.
Mountain Imperial-Pigeon	<i>Ducula badia</i>	Seen at Khao Yai & heard at Doi Chiang Dao.
Red-breasted Parakeet	<i>Psittacula alexandri</i>	Seen at Khao Yai.
Vernal Hanging-Parrot	<i>Loriculus vernalis</i>	Seen at Khao Yai & Rangsit Marsh.
Large Hawk-Cuckoo	<i>Cuculus sparveriioides</i>	Seen at Khao Yai & heard at Doi Lang.
Indian Cuckoo	<i>Cuculus micropterus</i>	Seen at Doi Lang.
Plaintive Cuckoo	<i>Cacomantis merulinus</i>	Seen at Suan Luang Park, Rangsit Marsh & Ban Thaton.
Asian Emerald Cuckoo	<i>Chrysococcyx maculatus</i>	Seen at Doi Ang Khang.
Asian Koel	<i>Eudynamis scolopacea</i>	Commonly present throughout. More commonly heard than seen.
Greater Coucal	<i>Centropus sinensis</i>	Seen at Khao Yai, Ban Thaton & Chiang Saen. Heard at Mahachai.
Lesser Coucal	<i>Centropus bengalensis</i>	Seen at Doi Chiang Dao & Doi Lang.
Collared Owlet	<i>Glaucidium brodiei</i>	Seen at Khao Yai.
Asian Barred Owlet	<i>Glaucidium cuculoides</i>	Seen at Khao Yai & Ban Thaton.
Brown Hawk-Owl	<i>Ninox scutulata</i>	Seen at Khao Yai.
Great Eared-Nightjar	<i>Eurostopodus macrootis</i>	Seen at Khao Yai.
Gray Nightjar	<i>Caprimulgus indicus</i>	Seen on the way to Doi Lang.
Large-tailed Nightjar	<i>Caprimulgus macrurus</i>	Seen at Ban Thaton
Himalayan Swiftlet	<i>Aerodramus brevirostris</i>	Seen at Khao Yai, Doi Chiang Dao, Doi Lang & Doi Ang Khang.
German's Swiftlet	<i>Aerodramus germani</i>	Seen at Suan Luang Park, Mahachai, Pak Thale & Rangsit Marsh.
Brown-backed Needletail	<i>Hirundapus giganteus</i>	Seen at Khao Yai & Doi Chiang Dao.
Asian Palm-Swift	<i>Cypsiurus balasienis</i>	Seen at Suan Luang, Pak Thale, Khao Yai, Rangsit & Chiang Saen.
Fork-tailed Swift	<i>Apus pacificus</i>	Seen at Doi Lang.
House Swift	<i>Apus nipalensis</i>	Seen at Doi Ang Khang.
Red-headed Trogon	<i>Harpactes erythrocephalus</i>	Seen at Khao Yai.
Orange-breasted Trogon	<i>Harpactes oreskios</i>	Seen at Heard at Khao Yai.
Common Kingfisher	<i>Alcedo atthis</i>	Seen at Ban Thaton & Chiang Saen.
Stork-billed Kingfisher	<i>Pelargopsis capensis</i>	Seen at Khao Yai.
White-throated Kingfisher	<i>Halcyon smyrnensis</i>	Seen at Khao Yai & Chiang Saen.
Black-capped Kingfisher	<i>Halcyon pileata</i>	Seen at Suan Luang Park, Samut Sakhon & Pak Thale.
Collared Kingfisher	<i>Todiramphus chloris</i>	Seen at Samut Sakhon & Pak Thale.
Pied Kingfisher	<i>Ceryle rudis</i>	Seen at Chiang Saen
Blue-bearded Bee-eater	<i>Nyctornis athertoni</i>	Seen at Khao Yai.
Green Bee-eater	<i>Merops orientalis</i>	Seen at Pak Thale.
Chestnut-headed Bee-eater	<i>Merops leschenaulti</i>	Seen at Khao Yai.
Indian Roller	<i>Coracias benghalensis</i>	Seen at Khao Yai.
Dollarbird	<i>Eurystomus orientalis</i>	Seen at Khao Yai.
Hoopoe	<i>Upupa epops</i>	Seen at Ban Thaton.
Oriental Pied-Hornbill	<i>Anthraceros albirostris</i>	Seen at Khao Yai.
Great Hornbill	<i>Buceros bicornis</i>	Seen at Khao Yai.
Wreathed Hornbill	<i>Aceros undulatus</i>	Seen at Khao Yai.
Lineated Barbet	<i>Megalaima lineata</i>	Seen at Khao Yai & Chiang Saen.
Green-eared Barbet	<i>Megalaima faiostricta</i>	Seen at Khao Yai.
Golden-throated Barbet	<i>Megalaima franklinii</i>	Seen at Doi Lang & Doi Ang Khang.
Blue-throated Barbet	<i>Megalaima asiatica</i>	Seen at Doi Chiang Dao. Heard at Doi Lang & Doi Ang Khang.
Moustached Barbet	<i>Megalaima incognita</i>	Seen at Khao Yai.
Blue-eared Barbet	<i>Megalaima australis</i>	Heard at Khao Yai.
Coppersmith Barbet	<i>Megalaima haemacephala</i>	Seen at Suan Luang Park, Khao Yai, Ban Thaton & Chiang Saen.
Gray-capped Woodpecker	<i>Dendrocopos canicapillus</i>	Seen at Doi Chiang Dao.
Stripe-breasted Woodpecker	<i>Dendrocopos atratus</i>	Seen by the guide at Doi Lang.
Rufous Woodpecker	<i>Ceolus brachyurus</i>	Seen at Khao Yai.
Greater Flameback	<i>Chrysocolaptes lucidus</i>	Seen at Khao Yai.
Bay Woodpecker	<i>Blythipicus pyrrhotis</i>	Seen at Doi Lang. Heard at Doi Ang Khang.
Great Slaty Woodpecker	<i>Mulleripicus pulverulentus</i>	Seen at Khao Yai.
Long-tailed Broadbill	<i>Psarisomus dalhousiae</i>	Seen at Khao Yai.
Blue Pitta	<i>Pitta cyanea</i>	Heard at Khao Yai.
Indochinese Bushlark	<i>Mirafraga erythrocephala</i>	Seen at Pak Thale.
Oriental Skylark	<i>Alauda gulgula</i>	Seen at Pak Thale.
Bank Swallow	<i>Riparia riparia</i>	Seen at Khao Yai.
Barn Swallow	<i>Hirundo rustica</i>	Seen commonly throughout.
Red-rumped Swallow	<i>Cecropis daurica</i>	Seen at Khao Yai
Striated Swallow	<i>Cecropis striolata</i>	Seen at Khao Yai, Doi Ang Khang & Chiang Saen.
Asian Martin	<i>Delichon dasypus</i>	Seen at Doi Lang.
White Wagtail	<i>Motacilla alba</i>	Seen at Suan Luang, Doi Chiang Dao, Ban Thaton & Chiang Saen
Yellow Wagtail	<i>Motacilla flava</i>	Suan Luang Park & Samut Sakhon.
Gray Wagtail	<i>Motacilla cinerea</i>	Seen at Khao Yai & Doi Ang Khang.
Paddyfield Pipit	<i>Anthus rufulus</i>	Seen at Khao Yai & Chiang Saen.
Richard's Pipit	<i>Anthus richardi</i>	Suan Luang Park, Khao Yai & Ban Thaton.
Olive-backed Pipit	<i>Anthus hodgsoni</i>	Seen at Doi Ang Khang.
Large Cuckoo-shrike	<i>Coracina macei</i>	Seen at Doi Lang.
Indochinese Cuckoo-shrike	<i>Coracina polioptera</i>	Seen at Khao Yai.
Black-winged Cuckoo-shrike	<i>Coracina melaschistos</i>	Seen at Doi Ang Khang.
Rosy Minivet	<i>Pericrocotus roseus</i>	Seen at Khao Yai.
Brown-rumped Minivet	<i>Pericrocotus cantonensis</i>	Seen at Khao Yai.

Ashy Minivet	<i>Pericrocotus divaricatus</i>	Seen at Ban Thaton.
Long-tailed Minivet	<i>Pericrocotus ethologus</i>	Seen at Doi Lang.
Short-billed Minivet	<i>Pericrocotus brevirostris</i>	Seen at Doi Lang & Doi Ang Khang.
Scarlet Minivet	<i>Pericrocotus flammeus</i>	Seen at Khao Yai & Doi Lang.
Bar-winged Flycatcher-shrike	<i>Hemipus picatus</i>	Seen at Khao Yai.
Crested Finchbill	<i>Spizixos canifrons</i>	Seen at Doi Lang.
Striated Bulbul	<i>Pycnonotus striatus</i>	Seen at Doi Lang & Doi Ang Khang.
Black-headed Bulbul	<i>Pycnonotus atriceps</i>	Seen at Khao Yai.
Black-crested Bulbul	<i>Pycnonotus melanicterus</i>	Seen at Khao Yai, Doi Chiang Dao & Doi Lang.
Red-whiskered Bulbul	<i>Pycnonotus jocosus</i>	Seen at Khao Yai, Doi Chiang Dao, Doi Lang, Ban Thaton & Doi Ang Khang.
Sooty-headed Bulbul	<i>Pycnonotus aurigaster</i>	Common seen at most sites in the north.
Stripe-throated Bulbul	<i>Pycnonotus finlaysoni</i>	Seen at Khao Yai
Flavescent Bulbul	<i>Pycnonotus flavescens</i>	Seen at Doi Lang & Doi Ang Khang.
Yellow-vented Bulbul	<i>Pycnonotus goiavier</i>	Seen at Suan Luang Park & Rangsit Marsh.
Streak-eared Bulbul	<i>Pycnonotus blanfordi</i>	Seen at Suan Luang Park, Samut Sakhon, Pak Thale & Khao Yai.
Puff-throated Bulbul	<i>Alophoixus pallidus</i>	Seen at Khao Yai.
Gray-eyed Bulbul	<i>Iole propinqua</i>	Seen at Khao Yai & Doi Chiang Dao.
Ashy Bulbul	<i>Hemixos flavala</i>	Seen at Khao Yai & Doi Ang Khang.
Mountain Bulbul	<i>Ixos mccllellandii</i>	Seen at Doi Lang & Doi Ang Khang.
Black Bulbul	<i>Hypsipetes leucocephalus</i>	Seen at Doi Chiang Dao.
Blue-winged Leafbird	<i>Chloropsis cochinchinensis</i>	Seen at Khao Yai.
Orange-bellied Leafbird	<i>Chloropsis hardwickii</i>	Seen at Doi Lang.
Common Iora	<i>Aegithina tiphia</i>	Seen at Suan Luang Park & Khao Yai.
Great Iora	<i>Aegithina lafresnayeii</i>	Seen at Khao Yai.
Chestnut-bellied Rock-Thrush	<i>Monticola rufiventris</i>	Seen at Doi Ang Khang.
Blue Rock-Thrush	<i>Monticola solitarius</i>	Seen at Khao Yai & Chiang Saen.
Blue Whistling-Thrush	<i>Myophonus caeruleus</i>	Seen at Khao Yai.
Dark-sided Thrush	<i>Zoothera marginata</i>	Seen at Doi Ang Khang.
Black-breasted Thrush	<i>Turdus dissimilis</i>	Seen at Doi Ang Khang.
Gray-winged Blackbird	<i>Turdus boulboul</i>	Seen at Doi Ang Khang.
Chestnut Thrush	<i>Turdus rubrocanus</i>	Seen at Doi Lang.
Eyebrowed Thrush	<i>Turdus obscurus</i>	Seen at Khao Yai.
Zitting Cisticola	<i>Cisticola juncidis</i>	Seen at Rangsit Marsh.
Golden-headed Cisticola	<i>Cisticola exilis</i>	Seen at Khao Yai.
Hill Prinia	<i>Prinia atrogularis</i>	Seen at Doi Lang & Doi Ang Khang.
Gray-breasted Prinia	<i>Prinia hodgsonii</i>	Seen by the guide in Ban Thaton.
Yellow-bellied Prinia	<i>Prinia flaviventris</i>	Seen at Khao Yai.
Plain Prinia	<i>Prinia inornata</i>	Commonly seen at most sites.
Oriental Reed-Warbler	<i>Acrocephalus orientalis</i>	Seen at Rangsit Marsh.
Mountain Tailorbird	<i>Orthotomus cuculatus</i>	Seen at Doi Ang Khang.
Common Tailorbird	<i>Orthotomus sutorius</i>	Seen at Suan Luang Park, Mahachai, Pak Thale, Khao Yai & Doi Chiang Dao. Heard at Ban Thaton.
Dark-necked Tailorbird	<i>Orthotomus atrogularis</i>	Seen at Khao Yai.
Dusky Warbler	<i>Phylloscopus fuscatus</i>	Seen at Chiang Saen.
Buff-throated Warbler	<i>Phylloscopus subaffinis</i>	Seen at Doi Ang Khang.
Yellow-streaked Warbler	<i>Phylloscopus armandii</i>	Seen at Khao Yai.
Buff-barred Warbler	<i>Phylloscopus pulcher</i>	Seen at Doi Lang & Doi Ang Khang.
Yellow-browed Warbler	<i>Phylloscopus inornatus</i>	Seen at most sites.
Arctic Warbler	<i>Phylloscopus borealis</i>	Seen at Ban Thaton.
Blyth's Leaf-Warbler	<i>Phylloscopus reguloides</i>	Seen at Khao Yai.
White-tailed Leaf-Warbler	<i>Phylloscopus davisoni</i>	Seen at Doi Lang & Doi Ang Khang.
Sulphur-breasted Warbler	<i>Phylloscopus ricketti</i>	Seen at Khao Yai.
Chestnut-crowned Warbler	<i>Seicercus castaniceps</i>	Seen at Doi Lang.
Plain-tailed Warbler	<i>Seicercus soror</i>	Seen at Khao Yai.
Asian Brown Flycatcher	<i>Muscicapa dauurica</i>	Seen at Suan Luang Park & Khao Yai.
Rufous-gorgeted Flycatcher	<i>Ficedula strophiatea</i>	Seen at Doi Lang.
Red-breasted Flycatcher	<i>Ficedula parva</i>	Seen at Suan Luang, Khao Yai, Doi Ang Khang & Chiang Saen.
Little Pied Flycatcher	<i>Ficedula westermanni</i>	Seen at Doi Lang.
Verditer Flycatcher	<i>Eumyias thalassina</i>	Seen at Khao Yai, Doi Lang & Doi Ang Khang.
Rufous-bellied Niltava	<i>Niltava sundara</i>	Seen at Doi Ang Khang.
Hainan Blue-Flycatcher	<i>Cyornis hainanus</i>	Seen at Khao Yai.
Pale Blue-Flycatcher	<i>Cyornis unicolor</i>	Seen at Khao Yai.
Hill Blue-Flycatcher	<i>Cyornis banyumas</i>	Seen at Khao Yai, Doi Lang & Doi Ang Khang.
Pygmy Blue-Flycatcher	<i>Muscicapella hodgsoni</i>	Seen at Doi Lang.
Gray-headed Canary-flycatcher	<i>Culicicapa ceylonensis</i>	Seen at Khao Yai, Doi Lang & Doi Ang Khang.
Red-flanked Bluetail	<i>Tarsiger cyanurus</i>	Seen at Doi Lang.
Golden Bush-Robin	<i>Tarsiger chrysaeus</i>	Seen at Doi Lang.
Oriental Magpie-Robin	<i>Copsychus saularis</i>	Seen commonly throughout.
White-rumped Shama	<i>Copsychus malabaricus</i>	Seen at Khao Yai.
White-capped Redstart	<i>Chaimarrornis leucocephalus</i>	Seen at Doi Ang Khang.
White-bellied Redstart	<i>Hodgsonius phaenicuroides</i>	Seen at Doi Ang Khang.
White-tailed Robin	<i>Cinclidium leucurum</i>	Seen at Doi Ang Khang.
Siberian Stonechat	<i>Saxicola maura</i>	Seen at Khao Yai, Rangsit Marsh & Ban Thaton.
White-crowned Forktail	<i>Enicurus leschenaulti</i>	Seen at Doi Ang Khang.
Pied Bushchat	<i>Saxicola caprata</i>	Seen at Doi Lang, Ban Thaton & Chiang Saen.
Gray Bushchat	<i>Saxicola ferrea</i>	Seen at Doi Lang.
Yellow-bellied Fantail	<i>Rhipidura hypoxantha</i>	Seen at Doi Lang.
White-throated Fantail	<i>Rhipidura albicollis</i>	Heard at Doi Lang & Doi Ang Khang.
Pied Fantail	<i>Rhipidura javanica</i>	Seen at Suan Luang, Samut Sakhon, Pak Thale & Rangsit Marsh.
Black-naped Monarch	<i>Hypothymis azurea</i>	Seen at Suan Luang Park, Khao Yai & Doi Chiang Dao.
Asian Paradise-Flycatcher	<i>Terpsiphone paradisi</i>	Seen at Doi Chiang Dao & Doi Lang. Heard at Khao Yai

White-crested Laughingthrush	<i>Garrulax leucolophus</i>	Heard at Khao Yai.
Black-throated Laughingthrush	<i>Garrulax chinensis</i>	Seen at Khao Yai.
Chestnut-crowned Laughingthrush	<i>Garrulax erythrocephalus</i>	Seen at Doi Lang
Red-faced Liocichla	<i>Liocichla phoenicea</i>	Seen at Doi Lang & Doi Ang Khang.
Puff-throated Babbler	<i>Pellorneum ruficeps</i>	Seen at Doi Lang & heard at Khao Yai.
Pygmy Wren-Babbler	<i>Pnoepyga pusilla</i>	Heard at Doi Lang.
Golden Babbler	<i>Stachyris chrysaea</i>	Seen at Doi Lang & Doi Ang Khang. Heard at Doi Chiang Dao.
Striped Tit-Babbler	<i>Macronous gularis</i>	Seen at Khao Yai.
Silver-eared Mesia	<i>Leiothrix argentauris</i>	Seen at Doi Ang Khang.
White-browed Shrike-Babbler	<i>Pteruthius flaviscapis</i>	Heard at Doi Lang.
Spectacled Barwing	<i>Actinodura ramsayi</i>	Seen at Doi Lang & Doi Ang Khang.
Blue-winged Minla	<i>Minla cyanouroptera</i>	Seen at Doi Lang & Doi Ang Khang.
Rufous-winged Fulvetta	<i>Alcippe castaneiceps</i>	Seen at Doi Lang.
Brown-cheeked Fulvetta	<i>Alcippe poioicephala</i>	Seen at Ban Thaton.
Gray-cheeked Fulvetta	<i>Alcippe morrisonia</i>	Commonly seen at Doi Lang & Doi Ang Khang.
Rufous-backed Sibia	<i>Heterophasia annectens</i>	Seen at Doi Ang Khang.
Black-backed Sibia	<i>Heterophasia melanoleuca</i>	Seen at Doi Lang.
Whiskered Yuhina	<i>Yuhina flavicollis</i>	Seen at Doi Lang.
White-bellied Yuhina	<i>Yuhina zantholeuca</i>	Seen at Khao Yai.
Black-throated Parrotbill	<i>Paradoxornis nipalensis</i>	Seen at Doi Lang.
Black-throated Tit	<i>Aegithalos concinnus</i>	Seen at Doi Lang.
Golden-bellied Gerygone	<i>Gerygone sulphurea</i>	Seen at Mahachai.
Great Tit	<i>Parus major</i>	Seen at Doi Ang Khang.
Yellow-cheeked Tit	<i>Parus spilonotus</i>	Seen at Doi Lang & Doi Ang Khang.
Sultan Tit	<i>Melanochlora sultanea</i>	Seen at Khao Yai.
Chestnut-vented Nuthatch	<i>Sitta nagaensis</i>	Seen at Doi Lang & Doi Ang Khang.
Velvet-fronted Nuthatch	<i>Sitta frontalis</i>	Seen at Doi Ang Khang.
Ruby-cheeked Sunbird	<i>Chalcoparia singalensis</i>	Seen at Khao Yai.
Plain-throated Sunbird	<i>Anthreptes malacensis</i>	Seen at Suan Luang Park & Pak Thale.
Olive-backed Sunbird	<i>Cinnyris jugularis</i>	Seen at Suan Luang Park, Pak Thale, Khao Yai & Rangsit Marsh.
Gould's Sunbird	<i>Aethopyga gouldiae</i>	Seen at Doi Lang & Doi Ang Khang.
Black-throated Sunbird	<i>Aethopyga saturata</i>	Seen at Khao Yai, Doi Chiang Dao, Doi Lang & Doi Ang Khang.
Little Spiderhunter	<i>Arachnothera longirostra</i>	Seen at Khao Yai.
Streaked Spiderhunter	<i>Arachnothera magna</i>	Seen at Doi Lang.
Thick-billed Flowerpecker	<i>Dicaeum agile</i>	Seen at Khao Yai.
Yellow-vented Flowerpecker	<i>Dicaeum chrysorrheum</i>	Seen at Khao Yai.
Plain Flowerpecker	<i>Dicaeum concolor</i>	Seen at Khao Yai & Doi Ang Khang.
Fire-breasted Flowerpecker	<i>Dicaeum ignipectus</i>	Seen at Khao Yai.
Scarlet-backed Flowerpecker	<i>Dicaeum cruentatum</i>	Seen at Suan Luang Park.
Chestnut-flanked White-eye	<i>Zosterops erythropleurus</i>	Seen at Khao Yai.
Oriental White-eye	<i>Zosterops palpebrosus</i>	Seen at Khao Yai & Doi Chiang Dao.
Japanese White-eye	<i>Zosterops japonicus</i>	Seen at Doi Lang & Doi Ang Khang.
Black-naped Oriole	<i>Oriolus chinensis</i>	Seen at Suan Luang Park & Khao Yai.
Black-hooded Oriole	<i>Oriolus xanthornus</i>	Seen at Doi Chiang Dao.
Maroon Oriole	<i>Oriolus traillii</i>	Seen at Doi Ang Khang & heard at Doi Lang.
Asian Fairy-bluebird	<i>Irena puella</i>	Seen at Khao Yai & Doi Chiang Dao.
Tiger Shrike	<i>Lanius tigrinus</i>	Seen at Khao Yai.
Brown Shrike	<i>Lanius cristatus</i>	Common at most sites.
Burmese Shrike	<i>Lanius colluriooides</i>	Seen at Ban Thaton.
Long-tailed Shrike	<i>Lanius schach</i>	Seen at Doi Lang, Ban Thaton & Doi Ang Khang.
Gray-backed Shrike	<i>Lanius tephronotus</i>	Seen at Doi Lang.
Black Drongo	<i>Dicrurus macrocercus</i>	Very common in open areas.
Ashy Drongo	<i>Dicrurus leucophaeus</i>	Seen at Khao Yai, Doi Chiang Dao, Doi Lang & Doi Ang Khang.
Bronzed Drongo	<i>Dicrurus aeneus</i>	Seen at Doi Lang & Doi Ang Khang.
Lesser Racket-tailed Drongo	<i>Dicrurus remifer</i>	Seen at Doi Lang & Doi Ang Khang.
Hair-crested Drongo	<i>Dicrurus hottentottus</i>	Seen at Khao Yai.
Greater Racket-tailed Drongo	<i>Dicrurus paradiseus</i>	Seen at Khao Yai & Doi Chiang Dao.
Ashy Woodswallow	<i>Artamus fuscus</i>	Seen at Pak Thale, Khao Yai, Doi Chiang Dao & Chiang Saen.
Green Magpie	<i>Cissa chinensis</i>	Seen at Khao Yai.
Gray Treepie	<i>Dendrocitta formosae</i>	Seen at Doi Lang & Doi Ang Khang.
Racket-tailed Treepie	<i>Crypsirina temia</i>	Seen at Ban Thaton.
Large-billed Crow	<i>Corvus macrorhynchos</i>	Seen at Suan Luang Park, Samut Sakhon, Pak Thale & Khao Yai.
Golden-crested Myna	<i>Ampeleiceps coronatus</i>	Seen at Khao Yai.
Common Hill Myna	<i>Gracula religiosa</i>	Seen at Khao Yai.
White-vented Myna	<i>Acridotheres grandis</i>	Very common in open areas.
Common Myna	<i>Acridotheres tristis</i>	Very common in open areas.
Black-collared Starling	<i>Gracupica nigricollis</i>	Seen at Ban Thaton & Chiang Saen.
Asian Pied Starling	<i>Gracupica contra</i>	Seen at Pak Thale & Rangsit Marsh.
Chestnut-tailed Starling	<i>Sturnia malabarica</i>	Seen at Ban Thaton & Chiang Saen.
Baya Weaver	<i>Ploceus philippinus</i>	Seen at Rangsit Marsh.
Pin-tailed Parrotfinch	<i>Erythrura prasina</i>	Seen at Khao Yai.
White-rumped Munia	<i>Lonchura striata</i>	Seen at Khao Yai, Doi Lang & Chiang Saen.
Scaly-breasted Mannikin	<i>Lonchura punctulata</i>	Seen at Pak Thale.
Black-headed Greenfinch	<i>Carduelis ambigua</i>	A small flock seen briefly on a boat trip down the river from Maekok Resort.
Plain-backed Sparrow	<i>Passer flaveolus</i>	Seen at Pak Thale & Khao Yai.
Eurasian Tree Sparrow	<i>Passer montanus</i>	Common at all sites.

Mammal List

White-handed Gibbon	<i>Hylobates lar</i>	Seen at Khao Yai.
Pig-tailed Macaque	<i>Macaca nemestrina</i>	Seen at Khao Yai.
Northern Treeshrew	<i>Tupaia bekangeri</i>	Suan Luang Park.
Grey-bellied Squirrel	<i>Callosciurus caniceps</i>	Seen at Khao Yai.
Variable Squirrel	<i>Callosciurus finlaysonii</i>	Seen at Suan Luang Park & Khao Yai.
Pallas's Squirrel	<i>Callosciurus erythraeus</i>	Seen at Doi Lang & Doi Ang Khang.
Black Giant Squirrel	<i>Ratufa bicolor</i>	Seen at Khao Yai.
Western Striped Squirrel	<i>Tamiops macclellandi</i>	Seen at Khao Yai.
Indochinese Ground-Squirrel	<i>Menetes berdmorei</i>	Seen at Khao Yai.
Sambar Deer	<i>Cervus unicolor</i>	Seen at Khao Yai.
Red Muntjak	<i>Muntiacus muntjak</i>	Seen at Khao Yai.
